

2023 ANNUAL REPORT

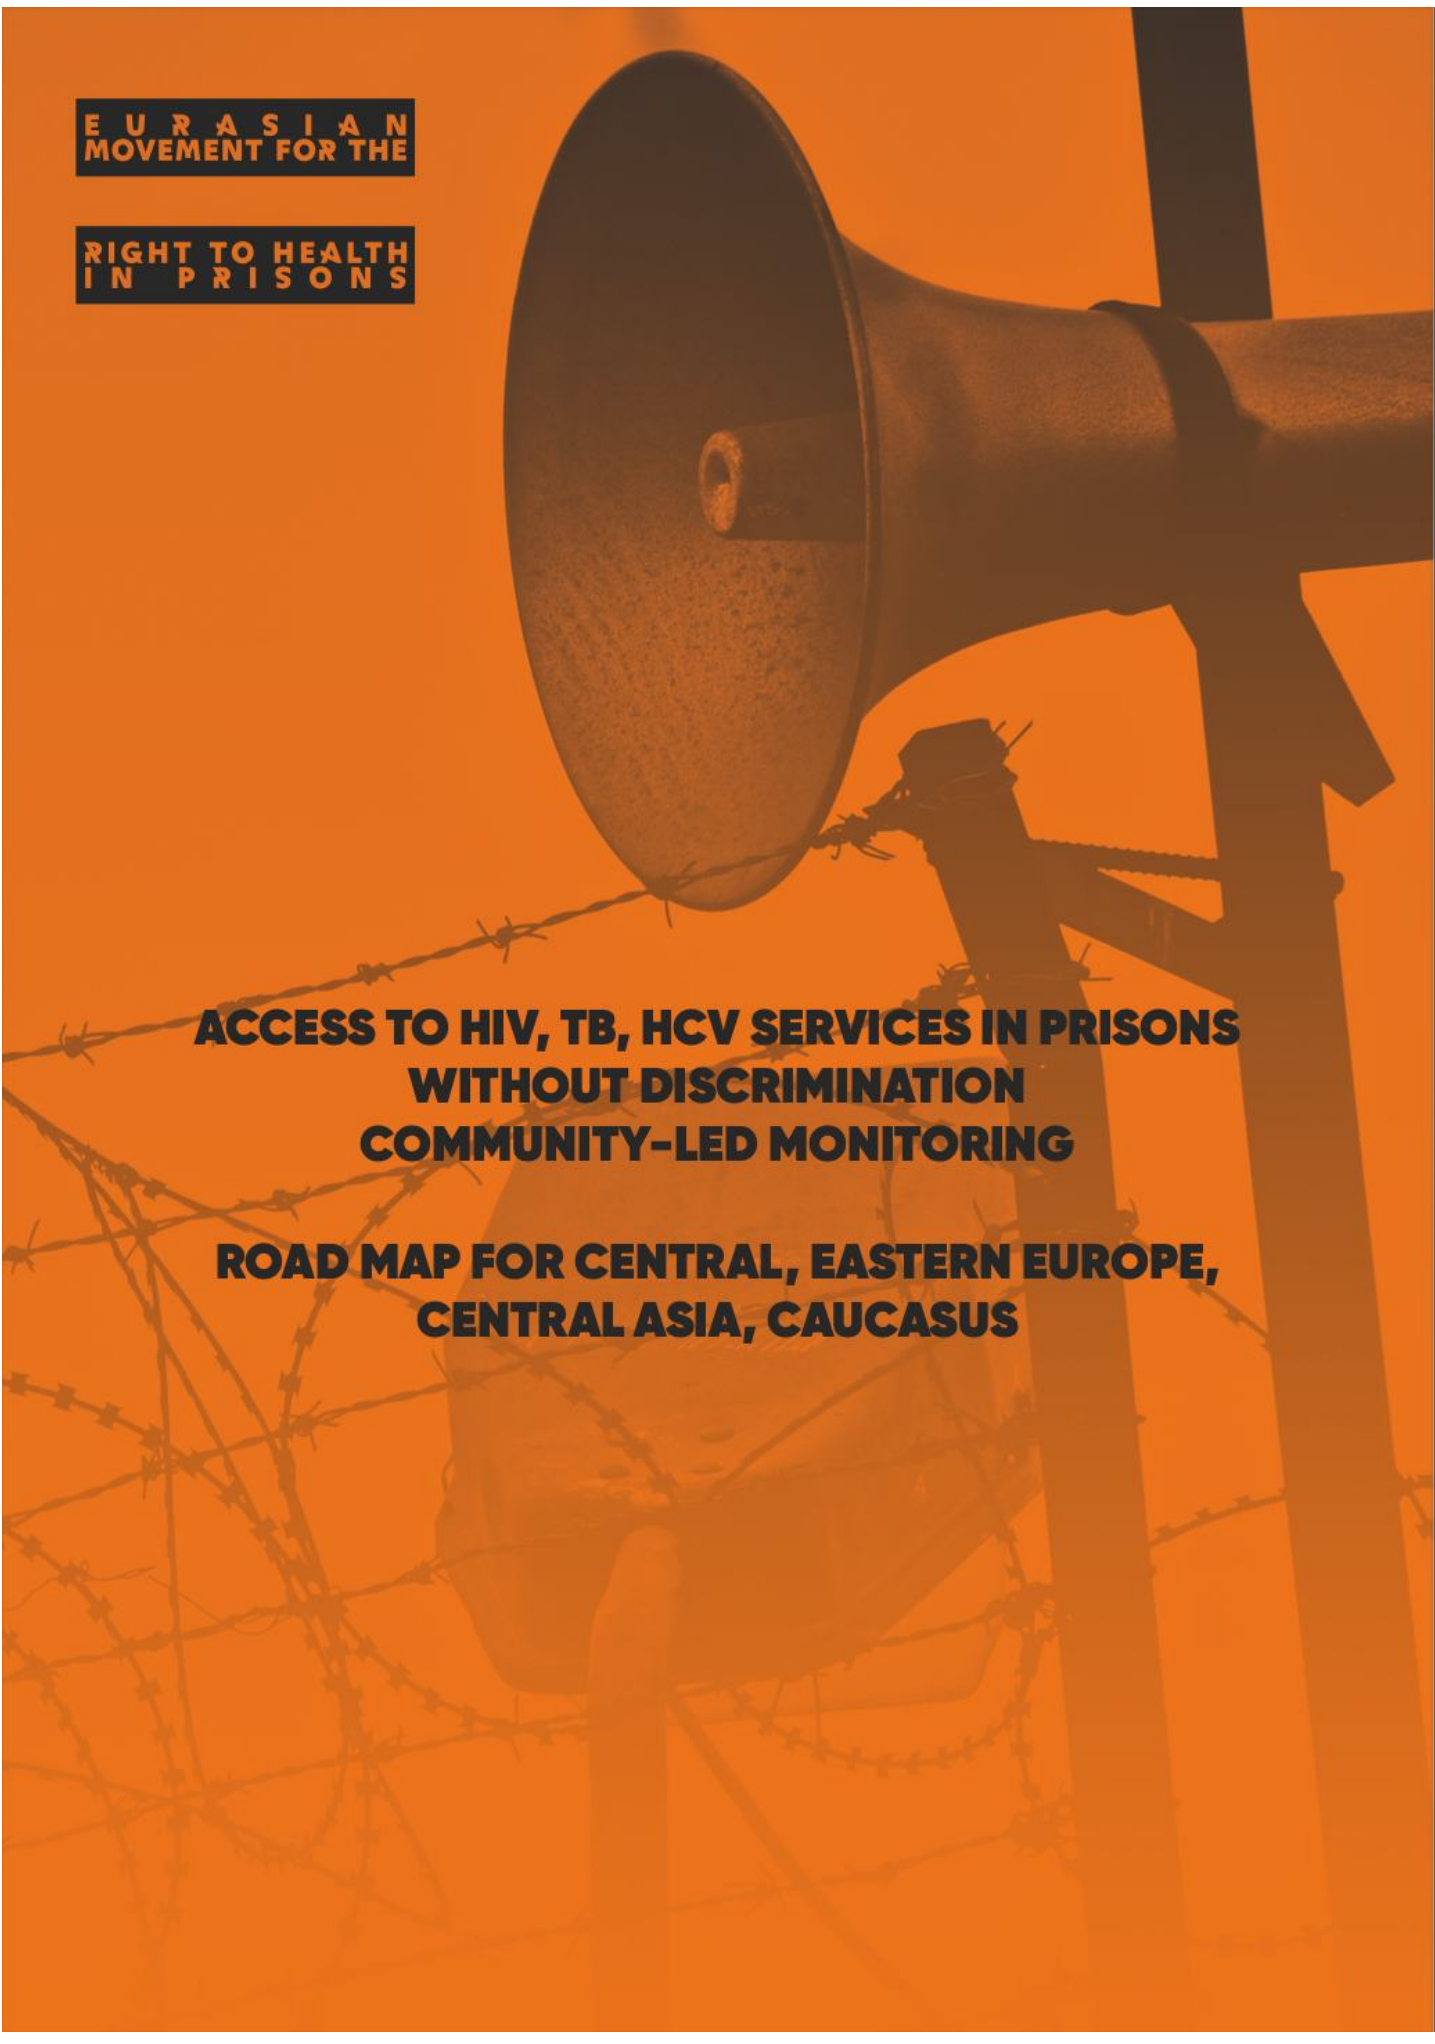

EURASIAN
MOVEMENT FOR THE

RIGHT TO HEALTH
IN PRISONS

PROJECTS

PROMOTING HEALTH RIGHTS IN PRISONS OF EECA COUNTRIES

with the financial support of the Robert Carr Fund

- In the framework of community mobilization activities **inception meetings** have been conducted with community representatives from **Kazakhstan, Kyrgyzstan, Georgia, Tadjikistan, Uzbekistan**;
- Initiative groups** of people with living experience in prisons have been created in **5 countries**;
- Experience exchange** visit of Ukrainian officials to Moldova was held to study the organization of harm reduction and rehabilitation service provision;
- Road Map “Access To HIV, TB, HCV Services in Prisons Without Discrimination. Community-Led Monitoring”** has been developed and presented to regional and international stakeholders and civil society representatives. The Road Map is the first guiding document for conducting CLM in prisons of EECA region and includes general principles for CLM in penitentiary institutions and differences between CLM in prisons and civil sector, data to be collected and mechanisms of collection, logical matrix to define the modality of CLM implementation in a particular country, recommended normative and infrastructural requirements for data collection and usage, suggestions for institutionalization of CLM data;
- Board meeting** was held in Tbilisi, Georgia, December 14–15 to assess progress made in 2023 and define priorities for 2024.

Experience exchange visit to Moldova

Board meeting in Tbilisi, Georgia

EXPANDING ACCESS TO HIV SERVICES IN PRISONS OF EECA REGION

with the financial support of the Global Fund to Fight AIDS, Tuberculosis and Malaria in the framework of the regional program “Sustainability of services for key populations in EECA region”, implemented by a consortium of organizations led by the ICF Alliance for Public Health in partnership with the CO 100% Life.

GEORGIA

Standards for release preparation, including an overdose prevention training module for penitentiary system staff, were developed
